Introduction to the Prosecco Wine Route and the Conagli Estate

The Prosecco Wine Route (Strada del Prosecco) winds through the hills of the Veneto and Friuli Venezia Giulia regions, connecting towns like Valdobbiadene and Conegliano—both UNESCO World Heritage sites for their viticultural heritage. This corridor is renowned for producing the iconic sparkling wine, Prosecco, predominantly crafted from the Glera grape.

Within this landscape, the Conagli estate emerges as a distinguished producer. Nestled in the heart of Conegliano, the estate benefits from a blend of historical roots and forward-thinking practices, positioning itself as a prominent figure in the pursuit of excellence within the region.

The History and Philosophy of Conagli

Historical Roots

Conagli traces its origins back over a century, rooted in family tradition and a deep connection to the land. Originally a small-scale farm, the estate transitioned into dedicated viticulture in the early 20th century, embracing the emerging popularity of Prosecco in Italy and abroad.

Philosophy and Vision

The estate's philosophy centers on respecting tradition while incorporating sustainable practices

and innovative winemaking techniques. Conagli aims to produce wines that reflect the unique characteristics of their terroir, emphasizing purity, elegance, and balance.

Terroir and Vineyard Characteristics

Geographical Location

Conagli's vineyards are situated on gentle slopes with well-drained marl and clay soils, contributing to the complexity and minerality of their wines. The elevation varies between 150 and 250 meters above sea level, offering ideal conditions for Glera grapes.

Climate

The region experiences a temperate climate with warm summers and cool winters. This climate allows for a slow and even ripening process, preserving acidity and aromatic potential—key factors in crafting high-quality Prosecco.

Vineyard Management

Sustainable viticulture practices are at the core of Conagli's approach. Techniques include organic fertilization, minimal chemical intervention, and canopy management to optimize sun exposure and airflow, reducing disease risk.

Production Techniques and Winemaking Philosophy

Grape Selection and Harvest

Conagli harvests Glera grapes manually at optimal ripeness, typically in late September. Careful selection ensures only the best fruit makes it into production, emphasizing quality over quantity.
